Subject: Mandated contraceptive insurance coverage?
Date: Monday, August 08, 2011 1:47:24 PM

I am very concerned about losing our foundational rights to practice the Catholic faith. We are not just guaranteed a "freedom to worship" as President Obama has begun calling it...our constitution protects our conscientious objection and refusal to participate in immoral actions such as unjust war, abortion, and birth control.

Pregnancy is not a disease; it is the natural result of a lifestyle choice. An unborn baby is not a physical threat to it's mother; although it is perhaps a threat to her lifestyle.

Please allow Catholics and those of other faiths to whom contraception, abortion, same-sex "marriage," etc., are immoral to opt out of participating in providing (either directly or by contributing to their purchase) these so-called services.

Thank you,
Louise Springer
